'**Challenge the Status- Quo**', a half-day interactive workshop on disruptive thinking was organised by GCCI on 23rd August 2019. The workshop was conducted by '**Transformavens - Training & Consulting, Mumbai**'. The founders of 'Transformavens' - two Indian Navy veterans - Commander Ninad Phatarphekar (Retd.) and Commodore Sreeram Srinivasan (Retd.) listed creativity, complex problem solving, people management, emotional intelligence among several others as essential skills required in 2020. Commander Phatarphekar deftly weaved in examples of people who had stepped out of their comfort zones to achieve the 'un-attainable' with interactive exercises for participants to nudge them out of their 'comfort zone'. The workshop which saw a good participation from industry representatives was appreciated by the audience for simple, easily doable objectives such as 'expanding one's comfort zone' - one step at a time, thinking out of the box, overcoming constraints etc.

Best Wishes,

--

Pallavi H Arondekar
Deputy Director
